Kevin Kipkemoi Ruto

Civil Engineering Student | Technology, Programming & Innovation

Kenya · kevinkipkemoiruto@gmail.com · linkedin.com/in/kevinruto · github.com/kevihnmtai

PROFILE

First-year Civil Engineering student at Kirinyaga University with interests in infrastructure, programming, artificial intelligence and practical problem-solving. Developing foundational technical skills through coursework, independent learning and early-stage digital projects. Interested in mentorship, student opportunities and collaborative work.

EDUCATION

Kirinyaga University — Civil Engineering, first-year undergraduate student (2026–present).
Tenwek High School — completed 2025, Grade B+.
Six Wheels Academy — primary education.

AREAS OF INTEREST

Civil Engineering: roads, infrastructure, construction materials and sustainable solutions.
Programming: C fundamentals and computational problem-solving.
Technology: AI tools, web development and digital workflows.
Research interest: practical approaches to rural road rockfall and slope-related challenges.

PROJECTS & DEVELOPMENT

Personal portfolio website — developing a responsive website to document interests, learning and projects.
Kevid Systems & Automation — exploring digital services, websites and customer-enquiry automation concepts.
Rural road rockfall and slope challenges — early research interest focused on low-cost, context-aware approaches.
C programming and engineering calculations — developing programming foundations and exploring future engineering applications.

SKILLS & LANGUAGES

Technical learning: foundational Civil Engineering subjects, programming fundamentals, web technologies and AI-assisted workflows.
Languages: English, Kiswahili and beginner-level Chinese (HSK 2 study level).

LEADERSHIP

School leadership experience in Foreign Affairs.

This is a starter CV based on current information. Review it before formal applications; project entries describe developing work, not completed professional experience.
